BASEBALL

Vulcan and Staveland Open Alberta Southern

The baseball season is again here. The opening game in the Southern Alberta League on Wednesday at Staveland, between Staveland and Vulcan, got big headlines and elaborate reports in the city papers and what the metropolitan sport writers say of the game and the teams is splendidly complimentary even to Vulcan, the defeated team, and they are correct when they say that the team is not now as good as it will be.

And that is not taking any credit from Staveland, who won by a score of 15 to 6. Staveland led from the start and were never overtaken, but Vulcan came close to it in the seventh, when with two out and two on Recour smashed out a homer that brought in three runs. This was the feature of a game that was a great hitting event. Busby pitched a good game for Vulcan, but two relief men who were sent in for the last two frames did not fare so well. Recour did the receiving for Vulcan, and Haynes and Allan were in the points for Staveland.

The loss of the opener has not diminished interest in the team or game locally, but has rather created a demand that Vulcan must have a real team, one that can keep pace with the speed of the league, and it will be a different team that will go against Champion here on Wednesday.

The effort was made to have High River play an exhibition game here on Wednesday, but without success. It is hoped that some team will be secured for this first half-holiday, and announcement will be made by poster.

The schedule of the Southern Alberta fixes a game between Champion and Staveland, at Champion, on May 20th.

BIG BUSINESS DEAL

Mr. A. G. Spooner has sold out his business and property. Before giving possession the stock must be reduced, and there will be a big bargain sale.

LOCAL ITEMS

Why not paint that building now and make it presentable.

Mr. G. A. Marcellus is breaking up the land on his little farm in town, the ultimate object being to supply the demand for garden produce in Vulcan.

Mr. "Dooley" Ober is making an addition to his house and nicely fencing his premises, contributing his part to the general improvement of the community.

Sixty or more head of work horses all in one bunch, went through Vulcan on Tuesday night. They came from the east and were going west to be used on road making contracts.

Mr. "Dad" Fletcher was in town on Wednesday and announced the completion of the seeding of 1800 acres of wheat, and the preparation of sixty acres for a garden. No wonder that the photographers, when they want pictures of something big in farming, come down to Vulcan and then go out to "Dad" Fletchers.

The town council has authorized the purchase of two nine-foot flags, to be raised on proper occasions on the high staffs at the athletic park and the playground park. This is fine. The flags will likely be here in time to be raised for the first time on Victoria Day in connection with the flag ceremony.

Died, at the home of his son, near Reid Hill, on May 12th, Charles G. Pritchard, aged sixty-five years. Deceased has been resident in the district for a number of years where he has become esteemed of many friends. Th body was prepared for transit and will be interred in the old home cemetery down in the United States. Mr. Ralph Pritchard, well known locally, is a son of the deceased.

The town council has definitely decided that Vulcan will have the annual and established celebration on Dominion Day, July 1st, with Harry Nelson as generalissimo. It is intended to make the celebration this year the equal and even the superior of the great success of last year. This is a real community event, and it will require the entire support of the community to attain the desired object.

Miss Tingle, Miss Orton and Mr. Percy Orton and Rev. C. R. Daniels, all of Vulcan, will constitute a party that will sail for the Old Country from Montreal on May 20th. These are all popular people and good-byes are being said at functions given in their honor. Their visit to their native land will no doubt be of exceeding great pleasure, and their return again to Vulcan will likewise be a satisfaction to many friends.

Attention has been directed to the necessity of being careful while attending the ball games by an incident of the other night. A foul ball right off the bat struck Master Jones on the forehead square between the eyes, knocking him out for a moment, and a big bruise is likely the only result of what might have been extremely serious. Everybody should watch out, or better still, make sure of a place of safety.

The Maple Leaves Girl's Club held their May meeting at the home of Miss Grace Andrews. There was a very large attendance of members and quite a number of visitors. Helen Gotthard gave a demonstration of putting a pocket in an apron. The quilt was brought and completely finished, but could not be disposed of as all the tickets were not sold, but the drawing will be held at the next meeting. A dainty lunch was served by the hostess. The next meeting will be held at Richmond Hill school on June 6th, when the girls will entertain their mothers.

The weather up to a week ago had remained cool with frosts at nights which delayed crop conditions but the past week has seen a noted change with summer like weather prevailing and the crops are responding well under the favorable soil conditions. The seeding in these parts is practically completed and it is estimated that about 10 per cent more acreage will be put in this year the usual amount being on summer-fallow, a little more than usual on spring ploughing and little on stubble. Green feed is now being put in in liberal quantities. The elevators report it very quiet with only occasional cars being loaded with delayed deliveries. Very little grain are now in the hands of farmers here. Prices on grain have been erratic for the past two weeks with a general tendency of upward and the local prices are today as follows: wheat \$1.48, oats 42c, barley 69c, and rye 95c.

LOCAL ITEMS

Order your trees and shrubs from Roy Walker, Vulcan. Phone 33.

Donald Speer, who has been ill for some few weeks, is rapidly recovering.

Mr. E. J. Charters is now definitely and actively employed in the insurance business as town and district representative of the Sovereign Life Assurance Company of Canada.

Recent improvements to the premises of Mr. David Cunningham will increase home comforts and convenience, and incidentally adds to the general improvement of Vulcan.

Improvements continue at the Black and White service station, and include alterations to the front and a big new door, presumably to make room for the increasing number of patrons.

Now that the gardens about the town are coming on nicely, it behoves all owners of animals and chickens, to regard the town ordinance in this respect and keep such confined and not allowed to run at large.

Vulcan is now very spic and span in appearance, but not yet one hundred per cent cleaned up. The tardy ones will at once receive the attention of the town police, an explicit order of the municipal council.

New uniforms have been procured for the football team, and they in part consist of cardinal sweaters and white trunks, a pretty combination, and the boys will look flashy in the new outfit, an appearance which will be in harmony with the kind of a game they are expected to play.

The Lindsay house, recently removed to a new location and enlarged and otherwise improved, has been purchased from Mr. Jennejohn by Mr. William Scott, of the telephone staff. May this enterprise have as a reward a home of comfort and happiness to a young and esteemed family of citizens.

Pending the passing of the by-law which is to govern the matter of early closing and half-holidays, many of the merchants and business people signed an agreement to close their shops on Wednesday afternoon and this agreement will become effective on Wednesday next, May 20th, of which patrons in the country are respectfully advised to take notice.

Big bills printed at The Advocate announces a stampede to be held on June 3rd, on the ranch premises of Mr. O. L. McPherson, just east of town, and which by nature afford a suitable ground and grand stand. The event is being promoted by the Thigh Hill Stampede Association with Barney Hogg as manager and Bert Long as arena manager. Every preparation is being made for a big show, and one thousand dollars will be paid in prizes for the cowboy stunts and contests. The bills carry the program, and it looks like a big day on that date.

Mr. Chris. Bakke, now well known locally as an athlete and expert footballer, sent a couple of copies of The Advocate and pictures of the Vulcan hockey teams home to a friend who is the editor of "Idrettlivs", the sporting paper published at Oslo, in Norway. He has just received a letter expressing appreciation of the pictures and the items of interest in the paper, and suggesting that Mr. Bakke must indeed be fortunate in landing in such a place as Vulcan, a sentiment which he fully endorses. Thus it is that the fame of Vulcan extends even to the uttermost parts of the earth through the medium of The Advocate.

Everything continues to go well with Vulcan Oils Limited. Car loads and car loads of people are constantly visiting the site in the oil fields, and visitors at once become enthusiastic investors. Stock is selling rapidly, the drilling rig is on the way, and derricks will be at the depot in a few days. Preparations are being speeded up by the greatest of optimism, and operations will be commenced and continued with the greatest of anticipation, prompted by the excellence of the proposition. As an oil prospect, none could be better, and the integrity of the management of the company has created a confidence that has induced ready investment. There is but one desire locally, and that is that Vulcan Oils will realize their anticipation to the limit.

The vote on the new school question was taken on Monday. There were thirty-eight in favor of the erection of a new school and three against. The vote was not large, but certainly was decisive. The foregone conclusion that the proposition would carry was perhaps responsible for the small vote. The sanction of the Utilities Commission must now be obtained, and then the work necessary to building will be undertaken as soon as possible, preparations for which are already under way by the school board. It now looks likely that when the students return to their studies after the summer holidays, or at least many of them, will have the accommodation of a four-room brick school with all modern equipment, which has for some considerable time has generally been considered a necessity.

LOCAL ITEMS

The dance committee of the I.O.O.F. is planning for a dance on Friday, May 29th.

Mrs. Howson, of Vancouver, is visiting in Vulcan, the guest of her daughter, Mrs. George Buck.

Members of the Cadet Corps have been brushing up and polishing accoutrements in anticipation of an official inspection.

Royal Municipality has recently made a purchase of new road machinery which is now in use on the roads in divisions two and three in close proximity to Vulcan.

The ladies in charge of the rest room in Vulcan gratefully acknowledge a donation of seven dollars from the Eastway Women's Institute.

Mr. Howard Nixon is back from the hospital at Calgary. He is somewhat bleached and reduced in weight, but he and many friends rejoice that an operation and proper treatment promise the result desired.

Signs are to be displayed on the boulevards, the idea being the protection of the beauty of these and the care of the trees which so splendidly adorn the streets, which are more or less in danger because of the carelessness of the few.

Mr. A. Beingsesser is preparing to go to Calgary, to direct the re-building at the machine works of his sheaf-loader, an invention of his which has been commanding the interest and attention of many farmers.

Mr. Bob Robbie goes on the honor roll of improvement this week. He is having his residence painted. Those who come from a distance to the "mirthquake" on May 23 and 25 will see a clean and attractive little city.

The Attree Capitol Dancers have been booked for a performance at the Vulcan opera house on Saturday, May 30th. The Advocate has pleasant memories of the visit of this company last year, and can assure theatre patrons that they will enjoy every minute of the performance.

The school board at a meeting on Monday night gave the third and final reading to the by-law authorizing the issue of debentures for the building of a new school. The board also received the highly satisfactory report of the Public School Inspector, which greatly commended the work of the teachers in every grade. This kind of a report will likewise be pleasing to parents and pedagogues.

The Calgary Herald recently printed a group picture of the 1925 graduating class of nurses at the Calgary General Hospital, and in the photo is Miss Helen Isabell Hale, of Vulcan. Local congratulations are extended generally to these young ladies and particularly to our Vulcan graduate. This mention of nurses and hospital and nurses serves to revive the thought of the time when we might have a municipal hospital in Vulcan.

The Good Deeds Women's Institute were hostesses to the Vulcan Institute on Thursday, May 7th, at the home of Mr. and Mrs. James Lucas. Sixty ladies were present. Court whist was played, Mrs. Gold winning first prize and Miss Mitchell second. Delicious refreshments were served at five o'clock. It was a most enjoyable event. The next regular meeting of Good Deeds will be held on May 14th at the home of Mrs. Steve Forrester. Mrs. D.H. Galbraith will be the speaker on this occasion.

Postmaster Elves, of Vulcan, went to Cayley on Sunday to visit his mother, the occasion being the sixtieth anniversary of her wedding, and it was co-incidental and appropriate that the event should come on "Mothers Day." Another incident was the birth the day before of a grandchild, making the total number about forty. The celebration of the golden wedding ten years ago was attended by the entire family, including eight sons and four daughters, the only break in which has been the death of the father some five years ago.

Messrs. Simington, Dawson and Nelson were in Calgary on Monday on business in connection with the Vulcan "mirthquake", and among other things lined-up a class of gymnasts at the Y. M. C. A. who will put on stunts of acrobatics and statue posing. Other artists were secured to appear in the "surprises" which have been advertised. Incidentally, the boys sold a book of tickets for the "quake." Mr. D. A. McCannell, employed in municipal hospital organization, made a short call in Vulcan on Wednesday while on the way back from Warner, where the organization for a hospital is practically completed. On the way he consulted municipal officials and business men at Champion who are interested in the hospital proposition which has for some time been more or less receiving attention and consideration in Vulcan and throughout adjacent territory. There are increasing evidence of the interest in a municipal hospital in this district, and as the necessity of such an institution does not diminish, there will likely be some definite and important action before long.

GRAZING LEASES

The announcement comes from Ottawa to D. E. Riley, president of the Western Stock Growers Association, that arrangements have been completed for issuing 21 year old leases to take the place of the 10-year leases now in force. The extension of the lease term has served to greatly encourage the stockmen of the west, for it is worth thousands of dollars to the industry to secure this change in the grazing leases which was obtained as a result of a plain recital of facts on the part of the Executive of the Stock-growers, as to the condition of stockmen when they visited officials of the Government. Meanwhile, President D. E. Riley, who has had associated with him, F. V. Bennis and J. Dillon, in interviews with the government on the subject, are in receipt of congratulations from stockmen generally on bringing the matter to such a satisfactory conclusion.

WELL PUT

In an address last week in the Ontario Legislature advocating claims of small-town hospitals, among other good points Hon. Dr. Jamieson made were the following: "While many committees as well as other interests, have from time to time made investigations and reports on the high cost of living, I believe it would be desirable and proper that an investigation be made into the high cost of dying. I am sure every member of the Legislature realizes that under modern conditions, when a case of illness occurs in a family and nursing and medical attendance have to be had according to the latest ideas of the prevailing fashions, it becomes a burden to secure the services of a high-class surgical specialist and a corps of registered nurses. Then, if the patient happens to die and a fashionable funeral is held by one of these newly-named undertakers of funeral directors or morticians, followed by the tombstone man, the saving of a life-time of an ordinary citizen will disappear—even before the estate falls into the hands of the lawyers.—Bruce-Herald & Times.

THE PRINCE A GREAT ASSET

Reports coming from South Africa indicate that the Prince of Wales is meeting with the same enthusiastic reception from that interesting country as he did when he visited America last year. The Prince is a most tactful person and does the right thing at the right time, knows what the people like and takes delight in doing it. That he should receive such a cordial and hearty reception from the people of a country that were not long ago talking about secession is very remarkable. At Cape Town he participated with the students in the ox cart procession, in fact took the lead and later addressed them in the Dutch University in their own language. The Prince is not only a "good-mixer" but he is kind and generous and thoughtful of others and has the heart of a true British heir.

After having been in charge of the Kincardine Review for the past 35 years, Col. Hugh Clark, Ex. M. P., has sold out his interest to J. J. Hunter, owner of the Kincardine Reporter and the two papers will be merged under the management of Mr. Hunter. Col. Clark is well-known for his witty and pungent paragraphs.

Dr. Roy, Canadian Commissioner to Paris will be appointed to the Canadian Senate succeeding the late Jean Cote in the latest. Dr. Roy served Canada in a most satisfactory manner while in Paris. He will be succeeded by Dr. Beland, a member of the King government.

ACTIVITIES OF "PEERLESS ONE"

Our old friend William Jennings Bryan has found a new outlet for his oratory, he is singing the praises of Florida real estate at a large salary. It is not related as to whether the "peerless one" is selling real estate or just real estate when the tide is out. Nor are we told as to whether or not an accident policy covering snake bites goes with every deed. In any event it is said that "the boy orator of the platitudes" is getting the largest salary ever paid a real estate broker, for he it understood William Jennings is not buying and selling Florida land, he is merely working up enthusiasm so that a real estate company can more easily load it upon northern tenderfeet. Advertisements in the Florida newspaper's announce that "William Jennings Bryan conducts his open forum to the public, in which he addresses immense crowds upon the wealth of Florida. You will enjoy Mr. Bryan's talks greatly. Special sight seeing trips with free lunches for our guests at the country club." United States political writers referring to Mr. Bryan's present activities are unkind enough to say that those of the democratic party who do not like him are getting much comfort out of his real estate activities. They say that if by 1928 all the people who have lost money in Florida real estate blame their losses on Bryan it will follow that no person by the name of Bryan can be nominated for any office whatever. Yet there is another view. William Jennings is said to have eyes on a Senatorship. Why not then a Senatorship from Florida. Surely every "Floridodler" interested in real estate, and that takes in the entire white population—the blacks do not count—would back Bryan, provided of course the boom does not break too quickly. At present the "peerless one" would ride to the Senate on the froth of his own real estate oratory. Ballyhooing for Florida subdivisions has obvious things in its favor, and William Jennings is not the man to overlook a good bet.—Toronto Saturday Night.

400 MEN WANTED

Four hundred men will be needed in Southern Alberta this season to do the work in connection with the raising of sugar beets on more than 6,000 acres for the new sugar factory now being built at Raymond. Orders for these men were received this week by Labor Commissioner Walter Smith. The work is to be done under contract, starting with the blocking and thinning at once. For the blocking and thinning the contract price offered is \$9.50 an acre, for hoeing \$2.50 an acre, for weeding in September, \$1.50 an acre, total of \$13.50 an acre. For harvesting \$10 an acre is being offered. A bonus of 75 cents a ton over 12 tons on the harvesting is being given. The first payment on the contract will be given on the completion of hoeing, the second after the weeding in September and the final payment following harvesting. Free housing is provided.

ALBERTA MAY EXPORT BUTTER

Last year Alberta exported to Britain and other countries over 4,000,000 lbs. of butter, which was a little less than one-fifth of the total production of creamery butter. During the present season it is anticipated that the surplus for export will increase to 7,000,000 lbs. which would be seven times what the exportable surplus was four years ago. This is some indication of the manner in which the dairy industry has grown in this province. The increase in exportable surplus is in great degree due to the improvement in quality under the official cream grading system inaugurated by the provincial government in co-operation with the creamery operators three years ago. The anticipation is that the total production of creamery butter will this year reach 25,000,000 lbs. Official cream graders are now being sent to their posts throughout the province. During the past four months special classes for these graders have been held at the University, and during the season some 75 to 80 graders will be at work.

King George opened the second British Empire Exhibition at Wembley on Saturday last.

RESUME WEED CAMPAIGN

Appointment of field supervisors for the prosecution of the weed campaign throughout the province during the coming season, is now being made by the provincial department of agriculture. There will be 17 supervisors this year, an increase of three over last year. The territory of each supervisor is being made somewhat smaller, in order that the whole field may be covered more thoroughly. Two supervisors will be placed this year in the Peace River district, one south and the other north of the river. It is the intention of the department to conduct a more vigorous campaign than ever for the destruction of weeds. A convention of the provincial government field supervisors and weed inspectors of the municipalities will be held at Olds on May 19 and 20. All the rural municipalities, towns and cities are being invited to send their weed inspectors to this convention, where a thorough discussion of the campaign for the season will be held. The provincial department will be represented by H. A. Craig, deputy minister of agriculture, and W. J. Stephen, field corps commissioner, under whose administration the weed work comes.

NOTES AND COMMENTS

The date for the holding of the provincial election in Saskatchewan has been fixed at June 2. Navigation has opened on the Peace River in Northern Alberta and the first boat will leave shortly for down river. Seventy-one homesteads were taken up at the Edmonton land office during the month of April. Three soldier grants were also filed on.

While swinging at a golf ball, a Seattle woman struck her 10-year old son on the head fracturing his skull. The boy may recover.

Farmers hereabouts are practically through with spring seeding and prospects look very good for a good year of prosperity among the farmers.

Governor General Lord Byng is to leave Edmonton on July 13, for a trip down the Mackenzie River to Aklavik in the Arctic. It is possible that he will be accompanied by Premier Greenfield of Alberta.

The Alberta-Illinois well looks like a corner and of late the gas flow has increased somewhat. Some trouble was experienced in removing a lost tool in the well. Confidence is increasing in oil possibilities of the Turner Valley.

The child welfare work of the provincial government, including the department of neglected children has been transferred to the jurisdiction of the department of health, under Hon. Geo. Hoadley, minister of health and agriculture.

Several States are following the lead of Alberta in adopting official cream grading systems. The latest to seek information is the State of Illinois, where it is hoped to work out some such system this year. The State of West Virginia is also endeavoring to inaugurate a system modelled on the Alberta system. It is expected that Dr. Mackay, Secretary of the American Association of Creamery Butter Manufacturers, will visit Alberta this summer to study the system here.

There once was a driver named Morning Who refused to heed any warning He drove on the track Without looking back, So they're mourning this morning for Morning. Bruce.

ROMANCE OF CPR

New Book on Canadian Pacific Railway is Valuable Contribution to History

Just forty years ago this fall the clang of a hammer in a remote fastness of the Rocky Mountains broke a silence which until a few months before had not been disturbed since the dawn of time. The wielder of the sledge was a vigorous, white-bearded man. Around him were gathered a small crowd of lookers-on. As the echo of the last stroke died away, cheer after cheer burst from the crowd. Why, the scene in its details was common-place, except perhaps for the magnificence of the setting. Why should they cheer the driving of a mere spike? Because this was not a mere spike. It was the last spike in the main line of the Canadian Pacific Railway, driven home by the hands of Sir Donald A. Smith (afterwards Lord Strathcona) bringing into fulfilment the dreams of generations, binding the far-flung provinces of British North America into one united Dominion, and finishing the British Empire "all red route." No wonder these men cheered. No wonder that within a few hours of the event cabled congratulations were flashing joyously Canada-wide from all parts of the world and from the Queen-Emress down. Much has happened since that historic and tremendous day. Canada has grown to be a power upon the earth, in many fields a leader among nations and the Canadian Pacific Railway has developed from a desperately struggling road which its enemies said would never pay its way, into the world's greatest transportation system, with a network of steel covering the whole Dominion, with a mighty fleet of huge liners and freighters on both oceans, with a gigantic telegraph and cable luxury, a far-reaching associated express company, with docks, elevators, lands, a powerful colonization and development department, a huge irrigation plant, a chain of palatial hotels. The Canadian Pacific will celebrate the fortieth anniversary of the driving of that last spike and it is fitting that the company should make 1925 a banner year. It is also fitting that in 1925 should appear a book which will serve to tell the whole story of the company in a manner that must thrill the blood of every reader. This is a copiously illustrated book, recently published by the Ryerson Press, Toronto, and written by R. G. MacBeth, and its name is "The Romance of the Canadian Pacific Railway." Here we have an invaluable contribution to the history of this Dominion, penned by a man who knows his subject thoroughly, though he writes entirely independently of never served in its employ and therefore takes the impartial viewpoint. Mr. MacBeth was born and bred in that western country which has been the company's chief field, a descendant of the first old Selkirk settlers, and has lived in the West all his life. He has had the advantage of seeing the Canadian Pacific grow up from the beginning, of knowing large numbers of its officers and of being thoroughly au fait with this country's story in all its phases. To this he adds a rare literary ability, a tenacious memory for many interesting side lights on the matter in hand and a fine appreciation of the romance and splendour that underlie the records of the Canadian Pacific, an organization advanced and made great in the face of terrible difficulties by the dauntless faith, unyielding courage and fierce, stern effort of a host of strong men.

Mr. MacBeth shows true appreciation of the inestimable benefits the corporation has brought to Canada and of its importance to the national unit. Disinterested people the world over have declared that the Canadian Pacific is the best advertisement for Canada that the Dominion has ever had and the most active agency in furthering her advance. When Canadians and indeed Britons everywhere have read, as they should "The Romance of the Canadian Pacific Railway" they will understand the truth of these assertions. The record, in Mr. MacBeth's capable hand, is not a dull one, but a living, breathing chapter of Canadian history, packed with personal touches, character sketches, little known facts, all the essential outlines, romance and adventure, which make this narrative of the gigantic company a veritable epic.

TALKING IT OVER

An old farmer was heard to have the following conversation with his negro servant:

"Jim, have you fed the horses?"

"Yassir."

"What did you feed them?"

"Hay."

"Did you feed the cow?"

"Yassir."

"What did you feed them?"

"Hay."

"Did you feed the ducks?"

"Yassir."

"What did you feed them?"

"Hay."

"No sir, dey didn't 'xactly eat it so far as I saw, but they was talking about it when I left."

Order your trees and shrubs from Roy Walker, Vulcan. Phone 33.

PARACHUTE JUMP

Flying Officer Carter Makes First Parachute Jump at the Aerodrome Before Large Gathering.

(From the High River Times)

As was informally announced on late Wednesday afternoon, Flying Officer Carter, of the High River Aerodrome, made his first demonstration jump from an aeroplane at the Aerodrome on this Thursday morning. A large gathering of mostly local people were on hand to witness the performance and view the drop from just outside the grounds, as general admission within was not permissible on this occasion. The start was booked for 11 o'clock but was not made until about 11:40, o'clock, awaiting the arrival of the J. A. Hutchinson, Forest Supervisor of the Bow River Forest Reserve and his party from Calgary, which included "Bill" Oliver, photographer for the Fox Films Corporation, who was on the job and took many interesting snaps. Flying Officer Carter appeared in full flying costume, with two folder parachutes attached to his person, one on his back and one on his chest, a regulation required by the Government in demonstration jumps, and with a movie camera attached to his knee. After several poses for pictures he mounted the machine standing on the lower plane next to C. H. Dickens, D.F.C., who acted as his pilot for the trip. The get-a-way was a little slow as was also the ascent, owing to the extra weight of Carter and the increased wind resistance, but after a long circle the height of 1200 feet was reached and at a good location, the word was given and he jumped, while the big crowd held their breath in expectancy. A drop of about 100 feet was made before the big parachute began to unfold and another 100 feet was made before it was completely unfurled and was serving its purpose. The time seemed short, and it was short, only about three and a half seconds being required for the first 100 feet and about the same time before the parachute was fully opened up. The sight was plainly visible with the naked eye and the body and particularly the legs of Flying Officer Carter, could be seen dangling in the air. It was an unusual and extraordinary sight to behold, and when in full descent, made a very pretty picture. It was not in duration however, as within a few minutes the officer landed and landed safely, but with slightly more of a jar than usual as with the quite heavy wind blowing, he was being carried with it and was unable to get himself faced forward, with the result that he landed backward and bumped his head slightly on the ground which temporarily dazed him, but which was of no serious consequences. He landed near the south-end of the starting grounds and assistants were quickly there to gather in the parachute and relieve the officer, who soon after walked back to the point of starting and appearing apparently as fresh as before the trip. It was his intention to make a second drop today, but this was finally postponed until another date. This flight demonstration and parachute drop was particularly for the edification and education of the local flying staff who are hereafter required under regulations to carry the parachutes for use in emergencies and the demonstration, as witnessed today, is conclusive evidence of their serviceable and growing popularity in this regard.

NOTES

At least five hundred were estimated to be viewing the performance from the north line of the Aerodrome and with the clear skies, all had a splendid view of the air-picture presented.

All thought that it was wonderful thing to see but some said that once was enough to see such a thrilling stunt with an intimate acquaintance as the principal.

Many and varied were the expressions heard about the drop but most of these carried the impressions that they did not envy Flying Officer Carter his job.

The wind and the extra weight of Carter on one side of the plane, made steering somewhat difficult in the ascent and retarded the speed of the aeroplane about ten miles an hour, stated Dickens.

It seemed a long time before the drop was completed but it was hardly twenty minutes from the get-a-way of the machine to the time of its return to ground and but a few minutes elapsed from leaving the plane to the ground.

Just before making the leap into space, Flying Officer Carter extended his hand to Pilot Dickens for him to remove his glove. Dickens not understanding the silent request, grabbed Carter's hand and, with a good-bye expression on his face, shook it heartily.—Carter jumped.

IN A LIGHTER VEIN

On his tour of the district an inspector of city high schools came before a class of girls. He wrote upon the blackboard, "LXXX." Then, peering over the rims of his spectacles at a good-looking girl in the first row, he asked:

"Young lady, I'd like to have you tell me what that means."

"Love and kisses," the girl replied.

Join the Pools

Farmers of Alberta!

Sign a Contract with the new Provincial Dairy, Livestock and Poultry Pools and have a say in the Marketing of Your Own Products

The Dairy Pool

aims to—

save 6 to 8 per cent on the price of butterfat for the producers by eliminating agents.
reduce railroad tolls.
reduce handling charges and overhead costs.
stabilize markets.

The Livestock Pool

aims to—

increase selling advantages by controlling a large volume of stock.
effect economies in handling.
protect the producer against excessive dockage charges.
protect the producer against a slump in price by stabilizing the market.

The Poultry Pool

aims to—

stabilize and extend markets.
gain for the producer the full benefit of the price paid for his product.
provide for storage of product in times of peak production.

To the Farmers and Farm Women:

These are YOUR POOLS. Their success will depend on your support. The best evidence of your belief in co-operative marketing is your signature to a contract.

DRIVE FOR MEMBERSHIPS

Canvassers will visit you between June 8 and 28.

Be ready to sign up then, if not before.

MAYVIEW NEWS

Miss McGinnis and her pupils entertained their parents and friends at the school house last Friday afternoon. The pupils in grades seven and eight put on a short play which was very well acted. After the play, there was an exciting game of basketball which was much enjoyed. Everyone had a pleasant afternoon.

Mr. and Mrs. Smith and family visited the former's uncle at Milo recently.

Mr. and Mrs. La Chappelle were recent visitors with friends at Milo.

Miss McGinnis spent last week at her home in Calgary.

Mrs. D. Burr spent a few days last week with Mrs. Spear, at Berrywater.

Mrs. Amey and Mrs. Louis were callers in our district the other day.

Mrs. Joe Richardson spent the last two weeks visiting in Calgary.

The recently organized Sunday school at Mayview is making good progress.

MARKET REPORT

(From the Market Examiner)

Beef—Top cattle are coming on the Calgary market and are selling at good prices. Choice heavy steers \$7 @ \$7.50; choice light \$7 @ \$7.25; good from \$6.25 @ \$7; medium \$5.25 @ \$5.50; common \$3 @ \$5. Choice heifers \$7 @ \$7.25; good \$5.25 @ \$6.50. Choice cows \$5.50 @ \$5.85; good \$5 @ \$5.35; medium \$4 @ \$4.50; common \$3 @ \$3.75; canners \$1.50 @ \$2.50. Choice bulls \$2.50 @ \$3; good to medium \$2 @ \$2.50; canners from \$1.25 up. Choice light calves \$9 with a few at \$10; other good calves \$6.50; common \$3 @ \$4.75. Feeders, Stockers—Very few choice light feeders were being offered, but are selling at about \$5.50; stocker steers \$3 @ \$5. Stock heifers \$2 @ \$3.50; stock cows \$2.25 @ \$3.

Hogs—Prices on the Calgary market still going down, and Wednesday's quotations at \$10.40; 10 per cent premium for bacon.

Sheep—Marketing in both the Edmonton and Calgary yards very light, with lambs selling at prices around \$13, wethers \$11, and ewes \$9, for the top quality stuff. Inquiry for breeding ewes but impossible to obtain supply to meet requirements.

Grain—Prices seem to be once more on the trend upwards. Seeding in the south is well under way as during the past few days fine weather has enabled the farmers to get out and finish up. Grain growers in the northern part of the province have been somewhat handicapped with the larger snowfall they had during the winter which has delayed land operations, but things are getting under way now.

Cream—A meeting is being held in Edmonton this week to settle cream prices and it is thought they will be paying on the old level soon. Manitoba settled their difficulty and are now quoting eastern Saskatchewan and Manitoba at 31 c, with western Saskatchewan same as Alberta. Creamery Butter—Values unchanged, with some shipments going to Vancouver, but make here is none too heavy; spring weather might make a little change in quotations. Cheese—Little importation from Ontario, but own plants are making and soon will be able to handle demand.

Eggs—Price dropped back a cent due to the number that are being handled and market conditions not being good. Quotations on extras 23c, firsts 20c, seconds 16c, cracks 13c. Large storage supplies in eastern cities; export trade looks favorable. Poultry—Trade quiet with hospitals and restaurants taking most of offerings, but business in United States and eastern part of Dominion good. Looks as if local storage will clean up before new crop; few broilers offered.

Hay—Nearly all cleaned up; farmers have to be careful as to what they ship as hay near the bottom of stacks is poor. Receipts mostly from north north, while shipments go south. Edmonton prices are a little higher, but trade not overly brisk.

Potatoes—Seedstock is what every one is looking for, but this will only last for about another three weeks. A few this month coming from the east and quotations are \$38 per ton. Local spuds are selling from \$30 @ \$33 per ton. Edmonton grade B from \$18 @ \$20.

BRANT NEWS

The grand opening of the Brant Community Hall will take place on Friday evening, May 15 and a splendid programme has been completed for the occasion. Dr. Stanley, of Calgary will be present to formally open the hall after which a dance will follow with music by Ted Williams' orchestra. The building will prove to be a great asset to the people of Brant and district as it will provide a proper place for the holding of public meetings, dances, etc. Everybody cordially invited to attend.

BERRYWATER NEWS

An interesting meeting of the Berrywater Local U.F.A. was held at the school house on Friday evening, May 8th. The various business on the agenda disposed of, the question of placing an order for binder twine was taken up with a travelling representative of the U.G.G., following which the Local listened to an interesting address on Banking, both theoretical and practical by Mr. Stewart, manager of the Bank of Commerce. Numerous questions were asked, which Mr. Stewart very kindly explained with blackboard illustrations when necessary. The Local has a program drawn up outlining the work for the year, endeavoring thereby to make the meetings interesting and instructive. The next meeting is on May 29th, which is a joint one with the U.F.W.A., also Mayview Local are attending as visitors. On June 26th, Mr. Lommatsch is to address the Local on Poultry.

Farmers hereabouts are practically through with spring seeding and prospects look very good for a good year of prosperity among the farmers.

OIL OUTLOOK

That Royalty No. 4 well in the Turner Valley is one of the greatest oil producing wells on the continent, is a fact that is slowly being impressed on the people of Alberta. This well is now producing at the rate of 490 barrels per day, according to an authoritative source and it is stated that any other equipment was at the well to save what is being wasted. This is not crude oil, but a highly refined, natural gasoline, of a quality finer than the gasoline that is commonly sold for motor use. This is not one of the big oil producers of the continent, but it is one of the most remarkable. For a well to give forth a refined gasoline is more rare. Needless to say, this well is an extraordinary in its value as in its performance. The Royalty No. 4 has attracted a vast amount of attention. It has renewed confidence in Southern Alberta as an oil field. There is considerable activity in the field this season, and still greater efforts are to be made to locate fresh oil supplies. The Turner Valley field, geologically speaking, is a comparatively restricted area, but is large enough to produce great values if other wells are brought in. That more wells will soon be producing there is practically beyond question, as much beyond doubt as anything in oil exploration can be. Here is a territory which by the rules of geology is oil-bearing. At one spot in it, and at a known depth, a considerable flow of gas and oil of a particularly valuable type has been met. It is not reasonable to believe that this is the only spot where oil lies in the identical formation and at the same depth, or an approximating depth. All eyes are at present turned to this one field. Other areas, known to geologists as indicative of oil, are spread over the province. Success in one territory leads to more intensive work in others. That is the experience of the industry. There is strong probability of other wells in Turner Valley and other localities being brought in and oil will greatly enrich this province. The Imperial Oil Company has said that the discovery of oil in quantity in Alberta "will transform the industrial outlook of Canada." We are possibly about to witness something is the only spot where oil lies in the of this sort.

It is interesting to note that the Vulcan Oils Limited will commence drilling at a point adjacent to Royalty wells and the shareholders are confident of bringing in a well similar in magnitude to that of Royalty No. 4, and other oil producing wells in the Turner Valley.

OFFER CASH PRIZES

The Department of Agriculture at Edmonton realizing the enormous damage being done by Gophers, Crows and Magpies, has decided to offer the following cash prizes with the view to save farm crops as well as Insectivorous and Game birds—Cash prizes ranging from One Dollar to Two Hundred Dollars will be paid by the Department of Agriculture for gopher tails, feet and eggs of crows and magpies, taken in 1925 on or before September 1st. Points will be credited as follows:

One point for each gopher's tail.
Two points for each crow's foot.
Two points for each magpie's foot.
Two points for each crow's or magpie's egg.

Competition One—Two Hundred Dollars for the first and One Hundred Dollars for the second prize to the Game Protective League or Gun Club in the cities of the Province of Alberta obtaining the greatest number of points. Over ten thousand points must be earned to qualify.

Competition Two—Two Hundred Dollars for the first and One Hundred Dollars for the second prize to the Game Protective League or Gun Club other than in the cities. Over five thousand points must be earned to qualify.

Competition Three—Two hundred and thirty-five prizes, ranging from One to Seventy-five Dollars for the residents of Alberta securing the greatest number of points. Points earned by any individual in Competitions One or Two will be allowed. Two hundred points must be earned to qualify.

Competition Four—The five village or rural schools earning the greatest number of points will in their order be awarded five prizes ranging from Ten to Seventy Dollars. Over twenty-five hundred points must be earned to qualify.

Competition Five—All persons attending a Separate, Public, or High School may compete. Three hundred and thirty-five cash prizes, ranging from One to Seventy-five Dollars will be paid in their order, to those obtaining the highest number of points. Points earned by any individual in Competition Four will be allowed. Two hundred points must be earned to qualify. For a copy of the regulations apply to Benj. Lawton, Game Commissioner, Edmonton.

Seventy-one homesteads were taken up at the Edmonton land office during the month of April. Three soldier grants were also filed on.

Four hundred men will be needed in Southern Alberta this season to do the work in connection with the raising of sugar beets on more than 6,000 acres for the new sugar factory now being built at Raymond. Orders for these men were received this week by Labor Commissioner Walter Smitten. The work is to be done under contract, starting with the blocking and thinning at once. For the blocking and thinning the contract price offered is \$9.50 an acre, for hoeing \$2.50 an acre, for weeding in September, \$1.50 an acre, total of \$13.50 an acre. For harvesting \$10 an acre is being offered. A bonus of 75 cents a ton over 12 tons on the harvesting is being given. The first payment on the contract will be given on the completion of hoeing, the second after the weeding in September and the final payment following harvesting. Free housing is provided.

POUND NOTICE

Domestic Animals Act (Municipalities)

Notice is hereby given under Section 45 of the Domestic Animals Act (Municipalities), that one Chestnut Mare, 7 years old, weight about 900 lbs., no visible brand, and one Steel Grey Stud, 2 years old, weight about 100 lbs., no visible brand, were impounded in the pound kept by L. A. Douglass, located on the N. 3 Section 1, Township 18, Range 23, on the 22nd day of April, 1925, and that the said animals were sold on the 7th day of May, 1925, to H. C. Douglass, of Vulcan, Alberta, and that said animals may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animals. For information apply to the undersigned.

J. K. McLEAN,
Secretary Treasurer, Municipal District of Marquis, No. 157.
Post Office, Vulcan, Alberta.

IN A LIGHTER VEIN

Woman Always Pays, Supposedly.—"What makes you look so fatigued?" was asked of an undersized Arkansas Cityan lately. "Well, it's like this," he replied. "My wife is walking to reduce, and the only time she can do it without attracting attention of the neighbors is in the evening. She then insists that I go along, even if I am tired. The past two weeks I have lost eight pounds and she has gained two ounces."—Arkansas City (Kan.) Traveler.

Public Notice

Notice is hereby given that a petition has been presented to the Council of the Town of Vulcan under the provisions of The Early Closing Act for the passing of the following closing By-Law.

BY-LAW No. 32
Council of the Town of Vulcan enacts as follows:

1. No person shall carry on any retail trade or business after the hour set forth in the schedule hereto annexed.
From Monday to Friday inclusive of each week, all shops to be closed at 6:00 p.m.
On Saturday of each week, all shops to be closed at 11 p.m.
On Wednesday afternoons after 1 p.m. from January 1st to August 15th.
2. Businesses not effected by this By-Law as follows—Implement Houses, Livery Stables, Garages, Blacksmith Shops, Tin Shops, Filling Stations, Drug Stores for sale of medicines.
3. Cafes where goods are sold are prohibited from selling anything after the hours mentioned above except refreshments to be consumed on the premises, Tobacco and Smoker's requisites.
4. Any person found guilty of a breach of the provisions of this By-Law shall upon conviction before a Justice of the Peace, or other officer having jurisdiction be liable to the penalties provided for by By-Law No. 1 of the Town of Vulcan, being a by-law to provide for the enforcement of the by-laws of the Town of Vulcan.

Notice is hereby further given that objections to the petition presented to the council praying for the passing of such by-law on the ground that such petition is insufficiently signed or otherwise affecting the validity or sufficiency thereof must be filed with the Secretary-Treasurer of the Town on or before the 30th day of May, 1925, and that if no such objections are filed before the said date, the council will forthwith proceed to pass the said closing by-law.

Town of Vulcan,
A. J. FLOOD,
Secretary-Treasurer

SUPPORT THE POOLS

Directors of Three Provincial Pools Ask for the Support of Business Organization in the Province.

Support of the boards of trade and

various service clubs in the cities and towns, and the agricultural societies in the drive to secure memberships for the new provincial dairy, livestock and poultry pools, is being asked by the joint organization committee of the pools, of which A. B. Claypool, M.L.A., is chairman. Letters were dispatched to all of these organizations during the past week, soliciting whatever support and assistance their members might be able to give in aiding the pools to reach their objective when the concentrated drive takes place during the three weeks from June 8th to 28th. It is felt that the business organizations will gladly support the pool movement as one essential in making Alberta a more attractive place for incoming settlers, as well as improving the conditions of those already on the land.

An effort is also being made to secure permission of the bank superintendents in the province to have the various branch banks throughout the province used as depots where copies of contracts can be secured by farmers or by canvassers during the drive.

The directors of the wheat pool, the members of the provincial legislature, the directors of the U.F.A. and of the U.F.W.A. are all asked to assist in the drive for memberships. The organization committee is relying upon the U.F.A. and U.F.W.A. locals to prosecute the work of canvassing the various districts. The joint organization committee for the pools was formed at a meeting of the directors of the three pools held in Edmonton last week-end. The committee consists of the secretaries of the three pools and the three chairmen as ex-officio members. The chairman of the joint pool is A. B. Claypool, the vice-chairman, is Mrs. F. E. Wyman, and the Secretary is R. A. Van Slyke. The members of the committee will make their headquarters in Edmonton during the latter part of May and during the period of the drive for members.

Up until the beginning of this week, the largest flock of hens signed up for the poultry pool was that of Chas. O. Dawson, of the Western Egg Farm, Ardenode, numbering 400 hens. Milton Roper, Secretary of the Mirror local of the U.F.A., who is one of the canvassers, says he and his brother will have 500 hens next winter.

One of the canvassers in the Grande Prairie district in two days' work last week signed up about 80 per cent. of the farmers in his territory for the livestock pool.

An indication of the extent to which the principles of co-operative marketing is being incorporated in legal enactments, is shown in the fact that 37 states of the union now have co-operative marketing legislation on their statute books.

When the Alberta egg and poultry pool starts to operate with sufficient volume of business and a large membership, it will have some right as to determining the grading of eggs and poultry, which is stated to be giving so much dissatisfaction at the present time throughout the Province.

It is interesting in this connection to note that on June 1st, a new law goes into force in Oregon. All eggs must be branded when offered for sale. It provides for three classes; standard size, weighing 22 ounces to the dozen and up; medium size, weighing 19 to 22 ounces; and under size, weighing 19 ounces. Any egg showing an air shrinkage of over three-eighths of an inch cannot be marketed as a fresh egg. The law also requires that imported eggs must be marked with the name of the place where they originate.

While swinging at a golf ball, a Seattle woman struck her 10-year old son on the head fracturing his skull. The boy may recover.

Here and There

The following apt comment on the careless motorist and his ultimate fate comes from the Boston Transcript:

"If a freight train at a crossing
Hits an auto fair and square
There's the freight train—Where's the auto?
"Echo answers 'Where?'"

Trees at the rate of 20,000 a day have been planted by farmers in Western Canada during the last 20 years, according to a report of the Federal Department of Agriculture. A total of 150,000,000 young trees, the report shows, has been distributed to farmers in that section in 1905.

Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nations agreement. Exports to that country very nearly doubled during 1924 and at the close of the year Germany was practically in the position of being Canada's third best customer.

A co-operative shipment of poultry to New York City, encouraged and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment consisted of two refrigerator carloads of turkeys and the shippers received 25 cents a pound for their birds, the New York selling price being 41 cents a pound.
